

To create exhaustive combinations of cutoffs :

i) Random Forest (Always two sources)

$\binom{21}{1}$ combinations of cutoffs \Rightarrow

 $(0.00001, 0.99999)$

 $(0.05, 1-0.05)$

 $(0.10, 1-0.10)$

 \vdots

 $(0.95, 1-0.95)$

 $(0.99999, 0.00001)$

ii) LDA/QDA with G sources :

$\binom{21}{G-1}$ combinations of prior prob.
